

3900-litre Stainless Steel Process/Pressure Vessels

Key Information:

- ***3900-litre Pressure Vessel***
- ***Vertical Cylindrical tank with torispherical Dished ends***
- ***(top suitable for fitting of agitator)***
- ***Material of Construction: 316 stainless***
- ***Volume: 3.9 m³***
- ***Dia: 1500mm***
- ***Shell straight length: 1900mm***
- ***Design pressure: 7 barg***
- ***Design Temp: -20 to +170 deg C***
- ***Design Code: ASME VIII, Div 1***
- ***Lifting supports: Lugs on top***
